Overview

Upper Hunter Shire Council is constituted under the Local Government Act 1993 (NSW) and has its principal place of business at:

135 Liverpool Street
SCONE NSW 2337

Council's guiding principles are detailed in Chapter 3 of the LGA and includes:

- principles applying to the exercise of functions generally by council,
- principles to be applied when making decisions,
- principles of community participation,
- principles of sound financial management, and
- principles for strategic planning relating to the development of an integrated planning and reporting framework.

A description of the nature of Council's operations and its principal activities are provided in Note B1-2.

Through the use of the internet, we have ensured that our reporting is timely, complete and available at minimum cost. All press releases, financial statements and other information are publicly available on our website: www.upperhunter.nsw.gov.au.

Upper Hunter Shire Council

General Purpose Financial Statements

for the year ended 30 June 2023

Understanding Council's Financial Statements

Introduction

Each year NSW local governments are required to present audited financial statements to their council and community.

What you will find in the Statements

The financial statements set out the financial performance, financial position and cash flows of Council for the financial year ended 30 June 2023.

The format of the financial statements is standard across all NSW Councils and complies with both the accounting and reporting requirements of Australian Accounting Standards and requirements as set down by the Office of Local Government.

About the Councillor/Management Statement

The financial statements must be certified by senior staff as 'presenting fairly' the Council's financial results for the year and are required to be adopted by Council – ensuring both responsibility for and ownership of the financial statements.

About the Primary Financial Statements

The financial statements incorporate five "primary" financial statements:

1. The Income Statement

Summarises Council's financial performance for the year, listing all income and expenses. This statement also displays Council's original adopted budget to provide a comparison between what was projected and what actually occurred.

2. The Statement of Comprehensive Income

Primarily records changes in the fair value of Council's Infrastructure, property, plant and equipment.

3. The Statement of Financial Position

A 30 June snapshot of Council's financial position indicating its assets, liabilities and "net wealth".

4. The Statement of Changes in Equity

The overall change for the year (in dollars) of Council's "net wealth".

5. The Statement of Cash Flows

Indicates where Council's cash came from and where it was spent. This statement also displays Council's original adopted budget to provide a comparison between what was projected and what actually occurred.

About the Notes to the Financial Statements

The Notes to the Financial Statements provide greater detail and additional information on the five primary financial statements.

About the Auditor's Reports

Council's financial statements are required to be audited by the NSW Audit Office.

In NSW the auditor provides 2 audit reports:

1. an opinion on whether the financial statements present fairly the Council's financial performance and position, and
2. their observations on the conduct of the audit, including commentary on the Council's financial performance and financial position.

Who uses the Financial Statements?

The financial statements are publicly available documents and must be presented at a Council meeting between seven days and five weeks after the date of the audit report.

The public can make submissions to Council up to seven days subsequent to the public presentation of the financial statements.

Council is required to forward an audited set of financial statements to the Office of Local Government.

Upper Hunter Shire Council

General Purpose Financial Statements

for the year ended 30 June 2023

Statement by Councillors and Management made pursuant to Section 413 (2c) of the *Local Government Act 1993* (NSW)

The attached general purpose financial statements have been prepared in accordance with:

- the *Local Government Act 1993* and the regulations made thereunder,
- the Australian Accounting Standards and other pronouncements of the Australian Accounting Standards Board
- the Local Government Code of Accounting Practice and Financial Reporting.

To the best of our knowledge and belief, these statements:

- present fairly the Council's operating result and financial position for the year
- accord with Council's accounting and other records.

We are not aware of any matter that would render these statements false or misleading in any way.

Signed in accordance with a resolution of Council made on 30 October 2023.

DRAFT

A About Council and these financial statements

A1-1 Basis of preparation

These financial statements were authorised for issue by Council on 25 September 2023. Council has the power to amend and reissue these financial statements in cases where critical information is received from public submissions or where the OLG directs Council to amend the financial statements.

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below.

These policies have been consistently applied to all the years presented, unless otherwise stated.

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Australian Accounting Interpretations, the *Local Government Act 1993 (Act)* and *Local Government (General) Regulation 2021 (Regulation)*, and the Local Government Code of Accounting Practice and Financial Reporting.

Council is a not for-profit entity.

The financial statements are presented in Australian dollars and are rounded to the nearest thousand dollars.

Certain items within expenses in the Income Statement have been reclassified in accordance with the Local Government Code of Accounting Practice and Financial Reporting 2020/21. There is no overall impact on the total expenses from continuing operations.

Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain infrastructure, property, plant and equipment and investment property.

Significant accounting estimates and judgements

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Council's accounting policies.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Council and that are believed to be reasonable under the circumstances.

Critical accounting estimates and assumptions

Council makes estimates and assumptions concerning the future.

The resulting accounting estimates will, by definition, seldom equal the related actual results.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year include:

- (i) estimated fair values of infrastructure, property, plant and equipment – refer Note C1-6
- (ii) estimated tip remediation provisions – refer Note C3-5
- (iii) employee benefit provisions – refer Note C3-4

Significant judgements in applying the Council's accounting policies

- (iv) Impairment of receivables

Council has made a significant judgement about the impairment of a number of its receivables – refer Note C1-4

Monies and other assets received by Council

The Consolidated Fund

In accordance with the provisions of Section 409(1) of the Local Government Act 1993 (NSW), all money and property received by Council is held in the Council's Consolidated Fund unless it is required to be held in the Council's Trust Fund.

Cash and other assets of the following entities have been included as part of the Consolidated Fund:

- General purpose operations
- Water service

A1-1 Basis of preparation (continued)

- Sewerage service
- Gummun Place Hostel

The Trust Fund

In accordance with the provisions of Section 411 of the *Local Government Act 1993 (NSW)* (as amended), a separate and distinct Trust Fund is maintained to account for all money and property received by the council in trust which must be applied only for the purposes of, or in accordance with, the trusts relating to those monies.

Trust monies and property subject to Council's control have been included in these reports.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities that are recoverable from, or payable to, the taxation authority, are presented as operating cash flows.

Volunteer services

Income relating to volunteer services should be recognised where the amount of these services are material as Council would have normally incurred the cost of these services had not donated. Accordingly these amounts of the volunteer services are also required to be measured reliably.

Council does enlist the services of volunteers however these amounts are not considered material to the financial statements and therefore are not recognised as income.

New accounting standards and interpretations issued but not yet effective

New accounting standards and interpretations issued but not yet effective

Certain new accounting standards and interpretations (ie. pronouncements) have been published by the Australian Accounting Standards Board that are not mandatory for the 30 June 2021 reporting period.

Council has elected not to apply any of these pronouncements in these financial statements before their operative dates.

Council's assessment of these new standards and interpretations (where they have been deemed as having a material impact on Council's future financial performance, financial position and cash flows) are set out below:

AASB 1059 Service Concession Arrangements: Grantors

AASB 2018–5 Amendments to Australian Accounting Standards - Deferral of AASB 1059

AASB 2019-2 Amendments to Australian Accounting Standards – Implementation of AASB 1059

This standard provides guidance for public sector entities (grantors) who have entered into service concession arrangements with private sector operators.

AASB 1059 requires grantors to recognise a service concession asset and, in most cases, a corresponding liability on the balance sheet.

A control approach is used to assess the service concession arrangements in place.

On initial recognition the asset is measured at current replacement cost based on AASB 13 Fair Value Measurement and existing assets of the grantors are reclassified at the date of transition.

After initial recognition, the grantor accounts for the assets under either AASB 116 Property, Plant and Equipment or AASB 138 Intangible Assets.

The nature of the consideration given to the operator will affect whether the grantor applies either the 'financial liability' or the 'grant of right' model for the recognition of the liability.

A1-1 Basis of preparation (continued)

AASB 2019-2 makes amendments to the recognition and measurement of the asset and liability where the modified retrospective approach to transition is being used and provides a practical expedient due to the different effective dates of AASB 16 and AASB 1059.

Council does not expect any material impact to future financial statements as we do not generally enter into service concession arrangements.

This standard has an effective date for the 30 June 2021 reporting period.

AASB2014-10 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
AASB2015-10 Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128
AASB 2017-5 Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections

The standard amendments address an acknowledged inconsistency between the requirements in AASB10 and those in AASB128 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture.

These amendments will only impact Council where there has been a sale or contribution of assets between Council and any Joint Venture or Associate.

The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

New accounting standards adopted during the year

During the year Council adopted all accounting standards and interpretations (as issued by the Australian Accounting Standards Board) which were mandatorily effective from the first time at 30 June 2021.

Those newly adopted standards which had a material impact on Council's reported financial position, financial performance and/or associated financial statement disclosures are further discussed in Note G4-1.

B Financial Performance

B1 Functions or activities

B1-1 Functions or activities – income, expenses and assets

Income, expenses and assets have been directly attributed to the following functions or activities. Details of those functions or activities are provided in Note B1-2.

\$ '000	Income		Expenses		Operating result		Grants and contributions		Carrying amount of assets

B1-2 Components of functions or activities

Details relating to the Council's functions or activities as reported in B1-1 are as follows:

Governance

Includes costs relating to Council's role as a component of democratic government, including elections, members' fees and expenses, subscriptions to local authority associations, meetings of Council and policy-making committees, public disclosure (e.g. GIPA), and legislative compliance.

Administration

Includes corporate support and other support services, engineering works, and any Council policy compliance.

Public order and safety

Includes Council's fire and emergency services levy, fire protection, emergency services, beach control, enforcement of regulations and animal control.

Health

Includes immunisation, food control, health centres etc.

Environment

Includes noxious plants and insect/vermin control; other environmental protection; solid waste management, including domestic waste; other waste management; other sanitation; and garbage, street cleaning, drainage and stormwater management.

Community services and education

Includes administration and education; social protection (welfare); migrant, Aboriginal and other community services and administration (excluding accommodation – as it is covered under 'housing and community amenities'); youth services; aged and disabled persons services; children's services, including family day care; child care; and other family and children services.

Housing and community amenities

Includes public cemeteries; public conveniences; street lighting; town planning; other community amenities, including housing development and accommodation for families and children, aged persons, disabled persons, migrants and Indigenous persons.

Water Supplies

Provision of Water Supply services to the Shires residents.

Sewerage Services

Provision of Sewerage services to the Shire residents.

Recreation and culture

Includes public libraries; museums; art galleries; community centres and halls, including public halls and performing arts venues; sporting grounds and venues; swimming pools; parks; gardens; lakes; and other sporting, recreational and cultural services.

Mining, manufacturing and construction

Includes building control, quarries and pits and mineral resources.

Transport and communication

Urban local, urban regional, includes sealed and unsealed roads, bridges, footpaths, parking areas, and aerodromes.

Economic affairs

Includes camping areas and caravan parks; tourism and area promotion; industrial development promotion; sale yards and markets; real estate development; commercial nurseries; and other business undertakings.

B1-2 Components of functions or activities (continued)

Share of gains(losses) in joint ventures

Share in Strategic Service Australia Pty Ltd under the Hunter Council's Joint Organisation.

General purpose revenue

Includes General rating, financial assistance grant funding and interest revenues.

DRAFT

B2 Sources of income

B2-1 Rates and annual charges

\$ '000	2023	2022
Ordinary rates		
Residential	4,802	4,687
Farmland	6,180	6,054
Mining	132	130
Business	653	637
Less: pensioner rebates	(143)	(153)
Rates levied to ratepayers	11,624	11,355
Pensioner rate subsidies received	80	87
Total ordinary rates	11,704	11,442
Annual charges (pursuant to s496, 496A, 496B, 501 & 611)		
Domestic waste management services	3,307	3,305
Stormwater management services	98	97
Water supply services	1,383	1,345
Sewerage services	3,122	3,058
Waste management services (non-domestic)	202	243
Environmental	129	129
Other	151	143
Less: pensioner rebates	(251)	(267)
Annual charges levied	8,141	8,053
Pensioner annual charges subsidies received:		
– Water	38	44
– Sewerage	42	41
– Domestic waste management	61	66
Total annual charges	8,282	8,204
Total rates and annual charges	19,986	19,646

Council has used 2022 year valuations provided by the NSW Valuer General in calculating its rates.

Accounting policy

Rates and annual charges are recognised as revenue at the beginning of the rating period to which they relate. Prepaid rates are recognised as a financial liability until the beginning of the rating period.

Pensioner rebates relate to reductions in rates and certain annual charges for eligible pensioners' place of residence in the local government council area that are not subsidised by the NSW Government.

Pensioner rate subsidies are received from the NSW Government to provide a contribution towards the pensioner rebates and are recognised within the underlying revenue item based on their substance.

B2-2 User charges and fees

\$ '000	Timing	2023	2022
Specific user charges (per s502 - specific 'actual use' charges)			
Water supply services	2	3,171	2,792
Sewerage services	2	265	236
Total specific user charges		3,436	3,028
Other user charges and fees			
(i) Fees and charges – statutory and regulatory functions (per s608)			
Building regulation	2	137	167
Inspection services		33	41
Private works – section 67	2	108	166
Regulatory/ statutory fees		55	64
Registration fees		15	19
Section 10.7 certificates (EP&A Act)	2	118	101
Section 603 certificates		30	51
Town planning	2	307	215
Total fees and charges – statutory/regulatory		803	824
(ii) Fees and charges – other (incl. general user charges (per s608))			
Aerodrome	2	123	84
Aged care	2	455	402
Caravan park	2	49	38
CCS fees		7	5
Cemeteries	2	138	124
Child care	2	1,453	1,509
Lease rentals	2	22	26
Library and art gallery		10	6
NSW rural fire services reimbursements	2	182	178
Park rents		25	10
Public halls		18	10
Refuse and effluent disposal		1	10

Roads		2	–
Saleyards	2	785	628
Sport facilities	2	462	295
Sundry sales		151	40
Tourism	2	277	384
Waste disposal tipping fees	2	995	908
Water connection fees	2	11	19
Total fees and charges – other		10,594	7,218
Total other user charges and fees		11,397	8,042
Total user charges and fees		14,833	11,070
Timing of revenue recognition for user charges and fees			
User charges and fees recognised over time (1)		–	–
User charges and fees recognised at a point in time (2)		14,833	11,070
Total user charges and fees		14,833	11,070

Accounting policy

Revenue arising from user charges and fees is recognised when or as the performance obligation is completed and the customer receives the benefit of the goods / services being provided.

The performance obligation relates to the specific services which are provided to the customers and generally the payment terms are within 30 days of the provision of the service or in some cases such as caravan parks, the customer is required to pay on arrival or a deposit in advance. There is no material obligation for Council in relation to refunds or returns.

Where an upfront fee is charged such as joining fees for the leisure centre the fee is recognised on a straight-line basis over the expected life of the membership.

B2-2 User charges and fees (continued)

Licences granted by Council are all either short-term or low value and all revenue from licences is recognised at the time that the licence is granted rather than over the term of the licence.

B2-3 Other revenues

\$ '000	Timing	2023	2022
Fines		2	3
Legal fees recovery – other		44	64
Commissions and agency fees	2	109	132
Insurance claims recoveries		–	266
Sales – general		1	9
Diesel and other vehicle rebates	2	109	117

Sales – scrap metal	2	227	320
Sales – tourism		2	4
Sustainability Rebates	2	18	100
Other – sundry		22	32
Other (Sewer assets found and/or corrected)		–	–
Other (RFS Red Fleet Recognition)		–	900
Total other revenue		592	2,005

Timing of revenue recognition for other revenue

Other revenue recognised over time (1)	–	–
Other revenue recognised at a point in time (2)	592	2,005
Total other revenue	592	2,005

Accounting policy for other revenue

Where the revenue is earned for the provision of specified goods / services under an enforceable contract, revenue is recognised when or as the obligations are satisfied.

Statutory fees and fines are recognised as revenue when the service has been provided, the payment is received or when the penalty has been applied, whichever occurs first.

Other revenue is recorded when the payment is due, the value of the payment is notified, or the payment is received, whichever occurs first.

B2-4 Grants and contributions

Unspent contributions at 30 June	-	-	7,005	5,318

Accounting policy**Grants and contributions – enforceable agreement with sufficiently specific performance obligations**

Grant and contribution revenue from an agreement which is enforceable and contains sufficiently specific performance obligations is recognised as or when control of each performance obligations is transferred.

The performance obligations vary according to the agreement but include delivery of services or events for which the grant is provided for such as provision for youth and community services or economic/tourism events. Payment terms vary depending on the terms of the grant, cash is received upfront for some grants and on the achievement of certain payment milestones for others.

Performance obligations may be satisfied either at a point in time or over time and this is reflected in the revenue recognition pattern. Point in time recognition occurs when the beneficiary obtains control of the goods / services at a single time (e.g. completion of the project when a report / outcome is provided), whereas over time recognition is where the control of the services is ongoing throughout the project (e.g. provision of community health services through the year).

Where control is transferred over time, generally the input methods being either costs or time incurred are deemed to be the most appropriate methods to reflect the transfer of benefit.

Capital grants

Capital grants received by Council under an enforceable contract for the acquisition or construction of infrastructure, property, plant and equipment to identified specifications which will be under Council's control on completion are recognised as revenue as and when the obligation to construct or purchase is completed.

For construction projects, this is generally as the construction progresses in accordance with costs incurred since this is deemed to be the most appropriate measure of the completeness of the construction project.

For acquisitions of assets, the revenue is recognised when the asset is acquired and controlled by the Council.

B2-4 Grants and contributions (continued)

Developer contributions

Council has obligations to provide facilities from contribution revenues levied on developers under the provisions of sections 7.4, 7.11 and 7.12 of the *Environmental Planning and Assessment Act 1979* (EP&A Act).

While Council generally incorporates these amounts as part of a Development Consents Order, such developer contributions are only recognised as income upon receipt by Council, due to the possibility that individual development consents may not be acted upon by the applicant and, accordingly, would not be payable to Council.

Developer contributions may only be expended for the purposes for which the contributions were required, but Council may apply contributions according to the priorities established in work schedules for the contribution plan.

Other grants and contributions

Assets, including cash, received from other grants and contributions are recognised at fair value when the asset is received. Council considers whether there are any related liability or equity items associated with the asset which are recognised in accordance with the relevant accounting standard.

Once the assets and liabilities have been recognised then income is recognised for any remaining asset value at the time that the asset is received.

Number of 'full-time equivalent' employees (FTE) at year end	250	256
Number of 'full-time equivalent' employees (FTE) at year end (incl. vacancies)	265	270

Accounting policy

Employee benefit expenses are recorded when the service has been provided by the employee.

Retirement benefit obligations

All employees of the Council are entitled to benefits on retirement, disability or death. Council contributes to various defined benefit plans and defined contribution plans on behalf of its employees.

Superannuation plans

Contributions to defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Council participates in a defined benefit plan under the Local Government Superannuation Scheme, however, sufficient information to account for the plan as a defined benefit is not available and therefore Council accounts for its obligations to defined benefit plans on the same basis as its obligations to defined contribution plans, i.e. as an expense when it becomes payable – refer to Note C3-4 for more information.

B3-2 Materials and services *

\$ '000	Notes	2023	2022
Raw materials and consumables		7,835	7,649
Contractor costs		28,593	29,082

Less: capitalised costs		(153)	(261)
Total depreciation and amortisation costs		14,032	18,417
Total depreciation, amortisation and impairment for non-financial assets		14,032	18,417

Accounting policy

Depreciation and amortisation

Depreciation and amortisation are calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives. Useful lives are included in Note C1-6 for IPPE assets and Note C1-7 for intangible assets.

Depreciation is capitalised where in-house assets have contributed to new assets.

Impairment of non-financial assets

Council assets held at fair value that are not held primarily for their ability to generate net cash flow, and that are deemed to be specialised, are not tested for impairment since these assets are assessed on an annual basis to ensure that the carrying amount is not materially different from fair value and therefore an impairment loss would be captured during this assessment.

Intangible assets not yet available for use, are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

Other non-financial assets that do not meet the criteria above are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

Impairment losses for revalued assets are firstly offset against the amount in the revaluation surplus for the class of asset, with only the excess to be recognised in the Income Statement.

B3-5 Other expenses

\$ '000	Notes	2023	2022
Net share of interests in joint ventures and associates using the equity method			
Joint ventures		–	245
Total net share of interests in joint ventures and associates using the equity method	D2-1,D2-3	–	245

Gain (or loss) on disposal		–	(34)
Net gain (or loss) from disposal of assets		(1,662)	(3,095)

Accounting policy

Gains and losses on disposals are determined by comparing proceeds with carrying amount. The gain or loss on sale of an asset is determined when control of the asset has irrevocably passed to the buyer and the asset is de-recognised.

B5 Performance against budget

B5-1 Material budget variations

Council's original budget was adopted by the Council on 26 June 2023 and is not required to be audited. The original projections on which the budget was based have been affected by a number of factors. These include state and federal government decisions, including new grant programs, changing economic activity, environmental factors, and by decisions made by Council.

While these General Purpose Financial Statements include the original budget adopted by Council, the Act requires Council to review its financial budget on a quarterly basis, so it is able to manage the variation between actuals and budget that invariably occur during the year.

Material variations of more than 10% between original budget and actual results or where the variance is considered material by nature are explained below.

Variation Key: **F** = Favourable budget variation, **U** = Unfavourable budget variation.

\$ '000	2023 Budget	2023 Actual	2023 ----- Variance -----	
Revenues				
Rates and annual charges	18,528	19,986	1,458	8% F

\$ '000	2023	2022
Cash assets		
Cash on hand and at bank	7,599	3,121
<u>Total cash and cash equivalents</u>	<u>7,599</u>	<u>3,121</u>

Reconciliation of cash and cash equivalents

Total cash and cash equivalents per Statement of Financial Position	7,599	3,121
<u>Balance as per the Statement of Cash Flows</u>	<u>7,599</u>	<u>3,121</u>

Accounting policy

For Statement of Cash Flow presentation purposes, cash and cash equivalents include: cash on hand; deposits held at call with financial institutions; other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value; and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Statement of Financial Position.

Total financial investments	33,500	–	33,529	–
Total cash assets, cash equivalents and investments	41,099	–	36,650	–

Accounting policy

Financial instruments are recognised initially on the date that the Council becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification

On initial recognition, Council classifies its financial assets into the following categories – those measured at:

- amortised cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income – equity instrument (FVOCI-equity)

Financial assets are not reclassified subsequent to their initial recognition.

Amortised cost

Council's financial assets measured at amortised cost comprise trade and other receivables, term deposits and cash and cash equivalents in the Statement of Financial Position. Term deposits with an initial term of more than 3 months are classified as investments rather than cash and cash equivalents.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, impairment and gains or loss on de-recognition are recognised in profit or loss.

C1-3 Restricted and allocated cash, cash equivalents and investments

\$ '000	2023	2022
(a) Externally restricted cash, cash equivalents and investments		
Total cash, cash equivalents and investments	41,099	36,650

External restrictions – other	22,076	21,682
Total external restrictions	39,967	36,332

Cash, cash equivalents and investments subject to external restrictions are those which are only available for specific use by Council due to a restriction placed by legislation or third-party contractual agreement.

\$ '000	2023	2022
(b) Internal allocations		
Cash, cash equivalents and investments not subject to external restrictions	1,132	318
Less: Internally restricted cash, cash equivalents and investments	<u>–</u>	<u>–</u>
Unrestricted and unallocated cash, cash equivalents and investments	1,132	318

Internal allocations

At 30 June, Council has internally allocated funds to the following:

Internal allocations

Council's cash, cash equivalents and investments were significantly reduced by considerable outstanding government grant receivables which has resulted in the disclosure of no internal restrictions as at 30 June 2022. These receivables related to major infrastructure projects completed or nearing completion towards the later part of the 2022 financial year in which physical cash on capital expenditure had been paid without subsequent recovery. The most significant infrastructure receivable outstanding at 30 June 2022 was for the Aerodrome redevelopment totaling \$4.5 million.

\$ '000	2023	2022

Balance at the beginning of the year (calculated in accordance with AASB 139)	475	475
+ new provisions recognised during the year	40	–
Balance at the end of the year	515	475

Accounting policy

Receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Receivables are generally due for settlement within 30 days.

Impairment

Impairment of financial assets measured at amortised cost is recognised on an expected credit loss (ECL) basis.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, and when estimating ECL, the Council considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on Council's historical experience and informed credit assessment, and including forward-looking information.

When considering the ECL for rates debtors, Council takes into account that unpaid rates represent a charge against the rateable property that will be recovered when the property is next sold. For non-rates debtors, Council uses the presumption that an asset which is more than 30 days past due has seen a significant increase in credit risk.

The Council uses the presentation that a financial asset is in default when:

- the other party is unlikely to pay its credit obligations to the Council in full, without recourse by the Council to actions such as realising security (if any is held) or
- the financial assets (for non-rates debtors) are more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the entity in accordance with the contract, and the cash flows expected to be received. This is applied using a probability weighted approach.

On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced significant increase in credit risk then the lifetime losses are estimated and recognised.

C1-4 Receivables (continued)

Council uses the simplified approach for trade receivables where the expected lifetime credit losses are recognised on day 1.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

The Council writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings or if the likelihood of recover is non-existent.

Rates and annual charges outstanding are secured against the property.

\$ '000	2023	2022
Real estate for resale	703	703
	703	703

Accounting policy

Raw materials and stores, work in progress and finished goods

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Costs are assigned to individual items of inventory on the basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for resale is stated at the lower of cost and net realisable value. Cost is assigned by specific identification and includes the cost of acquisition, and development and borrowing costs during development. When development is completed, borrowing costs and other holding charges are expensed as incurred.

Borrowing costs included in the cost of land held for resale are those costs that would have been avoided if the expenditure on the acquisition and development of the land had not been made. Borrowing costs incurred while active development is interrupted for extended periods are recognised as expenses.

(1) Renewals are defined as the replacement of existing assets (as opposed to the acquisition of new assets).

C1-6 Infrastructure, property, plant and equipment (continued)

Accounting policy

Infrastructure, property, plant and equipment are held at fair value. Independent comprehensive valuations are performed at least every five years, however the carrying amount of assets is assessed by Council at each reporting date to confirm that it is not materially different from current fair value. Due to the major increase in the building and construction industry post COVID Council has undertaken a desktop revaluation of its major assets classes for the 2021/2022 year.

A comprehensive revaluation of the water and sewerage networks was completed for the 2021/2022 year. For the years between the comprehensive revaluation the water and sewerage network assets are indexed at each reporting period in accordance with the Rates Reference Manual issued by Department of Industry (DoI) – Water.

Increases in the carrying amounts arising on revaluation are credited to the revaluation reserve. To the extent that the increase reverses a decrease previously recognising profit or loss relating to that asset class, the increase is first recognised as profit or loss. Decreases that reverse previous increases of assets in the same class are first charged against revaluation reserves directly in equity to the extent of the remaining reserve attributable to the class; all other decreases are charged to the Income Statement.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to Council and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Income Statement during the financial period in which they are incurred.

When infrastructure, property, plant and equipment are acquired by Council for nil or nominal consideration, the assets are initially recognised at their fair value at acquisition date.

Land is not depreciated. The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Council will obtain ownership at the end of the lease term. Depreciation on other assets is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as follows:

Plant and equipment	Years	Other equipment	Years
Office equipment	5 to 10	Playground equipment	5 to 15
Office furniture	10 to 20	Benches, seats etc.	10 to 20
Computer equipment	4		
Vehicles	5 to 8	Buildings	
Heavy plant/road making equipment	5 to 8	Buildings: masonry	50 to 100
Other plant and equipment	5 to 15	Buildings: other	20 to 40
Water and sewer assets		Stormwater assets	
Dams and reservoirs	80 to 100	Drains	80 to 100
Bores	20 to 40	Culverts	50 to 80
Reticulation pipes: PVC	70 to 80	Flood control structures	80 to 100
Reticulation pipes: other	25 to 75		
Pumps and telemetry	15 to 20		
Transportation assets		Other infrastructure assets	
Sealed roads: surface	20	Bulk Earthworks	Infinite
Sealed roads: structure	50	Swimming pools	50
Unsealed roads	20	Unsealed roads	20
Bridge: concrete	100	Other open space/recreational assets	20
Bridge: other	50	Other infrastructure	20
Road pavements	60		
Kerb, gutter and footpaths	40		

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Land under roads

Land under roads is land under roadways and road reserves including land under footpaths, nature strips and median strips.

Council has elected not to recognise land under roads acquired before 1 July 2008. Land under roads acquired after 1 July 2008 is recognised in accordance with the IPPE accounting policy.

C1-6 Infrastructure, property, plant and equipment (continued)

Crown reserves

Crown reserves under Council's care and control are recognised as assets of the Council. While ownership of the reserves remains with the Crown, Council retains operational control of the reserves and is responsible for their maintenance and use in accordance with the specific purposes to which the reserves are dedicated.

Improvements on Crown reserves are also recorded as assets, while maintenance costs incurred by Council and revenues relating to the reserves are recognised within Council's Income Statement.

Rural Fire Service assets

Under Section 119 of the Rural Fire Services Act 1997 (NSW), "all firefighting equipment purchased or constructed wholly or from money to the credit of the Fund is to be vested in the council of the area for or on behalf of which the firefighting equipment has been purchased or constructed".

These Rural Fire Service assets are recognised as assets of the Council in these financial statements.

C1-7 Intangible assets

Intangible assets are as follows:

\$ '000	2023	2022
Water Licence		
Opening values at 1 July		
Gross book value	234	234
Net book value – opening balance	234	234
Closing values at 30 June		
Gross book value	234	234
Total Water Licence – net book value	234	234
Total intangible assets – net book value	234	234

Accounting policy

Council acquired an entitlement to 100ml general allocation of water under the Hunter River 1A licence. The value of this entitlement has been recorded at historical cost.

C2 Leasing activities

C2-1 Council as a lessee

Council has leases over a range of assets including land and buildings, vehicles, machinery and IT equipment. Information relating to the leases in place and associated balances and transactions is provided below.

Terms and conditions of leases

Buildings

Council leases buildings which include the Scone Library and other buildings; the leases are generally between 1 and 2 years and some of them include a renewal option to allow Council to renew for up to twice the noncancellable lease term at their discretion.

The building leases contains an annual pricing mechanism based on either fixed increases or CPI movements at each anniversary of the lease inception.

Office and IT equipment

Leases for office and IT equipment are generally for low value assets, except for significant items such as photocopiers. The leases are for between 4 and 5 years with no renewal option, the payments are fixed.

Extension options

Council includes options in the building leases to provide flexibility and certainty to Council operations and reduce costs of moving premises; and the extension options are at Council's discretion.

At commencement date and each subsequent reporting date, Council assesses where it is reasonably certain that the extension options will be exercised.

There is an immaterial amount of amounts below approx \$10,000 to \$20,000 of potential future lease payments which are not included in lease liabilities as Council has assessed that the exercise of the option is not reasonably certain.

(a) Right of use assets

\$ '000	Ready to use	Total
2023		
Opening balance at 1 July	371	371
Additions to right-of-use assets	80	80
Depreciation charge	(150)	(150)
Balance at 30 June	301	301
2022		
Opening balance at 1 July	324	324
Additions to right-of-use assets	164	164
Depreciation charge	(117)	(117)
Balance at 30 June	371	371

(b) Income Statement

The amounts recognised in the Income Statement relating to leases where Council is a lessee are shown below:

\$ '000	2023	2022
Interest on lease liabilities	13	10
Variable lease payments based on usage not included in the measurement of lease liabilities	70	80
Depreciation of right of use assets	150	117
	233	207

C2-1 Council as a lessee (continued)

\$ '000	2023	2022
(c) Statement of Cash Flows		
Total cash outflow for leases	316	399
	316	399

(d) Leases at significantly below market value – concessionary / peppercorn leases

Council has a number of leases at significantly below market for land and buildings which are used for:

- Pre-schools
- Rural fire brigades
- SES
- community halls

The leases are generally between 5 and 20 years and either require payments of a maximum amount of up to \$5,000 per year and/or are gifted by Council due to the nature of the service provided. The use of the right-to-use asset is restricted by the lessors to specified community services which Council must provide, these services are detailed in the leases.

Council does not believe that any of the leases in place are individually material from a statement of financial position or performance perspective.

Accounting policy

At inception of a contract, Council assesses whether a lease exists – i.e. does the contract convey the right to control the use of an identified asset for a period of time in exchange for consideration?

Council has elected not to separate non-lease components from lease components for any class of asset and has accounted for payments as a single component.

At the lease commencement, Council recognises a right-of-use asset and associated lease liability for the lease term. The lease term includes extension periods where Council believes it is reasonably certain that the option will be exercised.

The right-of-use asset is measured using the cost model where cost on initial recognition comprises: the lease liability, initial direct costs, prepaid lease payments, estimated cost of removal and restoration, less any lease incentives received. The right-of-use asset is depreciated over the lease term on a straight-line basis and assessed for impairment in accordance with the impairment of asset accounting policy.

The lease liability is initially recognised at the present value of the remaining lease payments at the commencement of the lease. The discount rate is the rate implicit in the lease, however where this cannot be readily determined then the Council's incremental borrowing rate for a similar term with similar security is used.

Subsequent to initial recognition, the lease liability is measured at amortised cost using the effective interest rate method. The lease liability is re-measured when there is a lease modification, or change in estimate of the lease term or index upon which the lease payments are based (e.g. CPI).

Where the lease liability is re-measured, the right-of-use asset is adjusted to reflect the re-measurement.

Exceptions to lease accounting

Council has applied the exceptions to lease accounting for both short-term leases (i.e. leases with a term of less than or equal to 12 months) and leases of low-value assets. Council recognises the payments associated with these leases as an expense on a straight-line basis over the lease term.

Leases at significantly below market value / Concessionary leases

Council has elected to measure the right of use asset arising from the concessionary leases at cost which is based on the associated lease liability at initial recognition.

C2-2 Council as a lessor

Council receives rental income from residential, commercial and community hall & centres premises that they own and control. These premises are predominantly under leases with terms of less than 12 months and/or hired out on an adhoc basis. At present Council has a number of leases which have expired and are currently in the process of being renewed.

C2-2 Council as a lessor (continued)

Operating leases

Council leases out a number of commercial and residential properties; these leases have been classified as operating leases for financial reporting purposes and the assets are included in the IPP&E assets in the Statement of Financial Position.

The amounts recognised in the Income Statement relating to operating leases where Council is a lessor are shown below:

\$ '000	2023	2022
---------	------	------

(i) Assets held as investment property

The amounts recognised in the Income Statement relating to operating leases where Council is a lessor are shown below

Operating lease expenses

Direct operating expenses that generated rental income	577	595
Total expenses relating to operating leases	577	595

(ii) Assets held as property, plant and equipment

Lease income (excluding variable lease payments not dependent on an index or rate)	475	450
Total income relating to operating leases for Council assets	475	450

Accounting policy

When Council is a lessor, the lease is classified as either an operating or finance lease at inception date, based on whether substantially all of the risks and rewards incidental to ownership of the asset have been transferred to the lessee. If the risks and rewards have been transferred then the lease is classified as a finance lease, otherwise it is an operating lease.

When Council has a sub-lease over an asset and is the intermediate lessor then the head lease and sub-lease are accounted for separately. The classification of the sub-lease is based on the right-of-use asset which arises from the head lease rather than the useful life of the underlying asset.

If the lease contains lease and non-lease components, the non-lease components are accounted for in accordance with AASB 15 *Revenue from Contracts with Customers*.

The lease income is recognised on a straight-line basis over the lease term for an operating lease and as finance income using amortised cost basis for finance leases.

C3 Liabilities of Council

C3-1 Payables

\$ '000	2023	2023	2022	2022
	Current	Non-current	Current	Non-current
Goods and services – operating expenditure	4,308	–	2,950	–
Goods and services – capital expenditure	6,180	–	3,603	–

Total user fees and charges received in advance		241	-	291	-
Total contract liabilities		17,307	-	14,028	-

Notes

(i) Council has received milestone funding to construct assets including Scone CBD revitalisation, roads and bridges, sporting venues and other infrastructure. The funds received are under an enforceable contract which require Council to construct an identified asset which will be under Council's control on completion. The revenue is recognised as Council constructs the asset and the contract liability reflects the funding received which cannot yet be recognised as revenue. The revenue is expected to be recognised over the completion of the respective projects in the next 12 to 24 months.

(ii) The contract liability relates to grants received prior to the revenue recognition criteria in AASB 15 being satisfied since the performance obligations are ongoing.

(iii) User fees and charges in advance represent the delivery of services or supply and do not meet the definition of a performance obligation and therefore the funds received are recorded as a contract liability on receipt and recognised as revenue over the expected usage of the services over time.

Contract liabilities relating to restricted assets

\$ '000	2023 Current	2023 Non-current	2022 Current	2022 Non-current

Grants and contributions received in advance:		
Capital grants (to construct Council controlled assets)	5,177	1,695
Operating grants (received prior to performance obligation being satisfied)	153	76
User fees and charges received in advance:		
Radio tower lease fees	30	31
Maintenance Contributions	32	31
Water usage charges	187	163
Event Contribution and fees	42	1
Total revenue recognised that was included in the contract liability balance at the beginning of the period	5,621	1,997

Significant changes in contract liabilities

During the year Council continued to successful obtaining a number of significant grant funding opportunities to delivery major infrastructure works over the next two to three years. These funding opportunities included upfront milestone payments on signing of the funding deed and milestones at the commencement of construction. Projects included:

- Fixing Local Roads Round 4 - Hunter Road
- Fixing Local Roads - Regional and Local Roads Repair Program
- Fixing Country Bridges - Milestone 3 for the replacement of 14 bridges
- Public Shared Spaces - St Aubins Town Square
- Resources for Regions - Round 9
- Local Roads and Community Infrastructure Program - Phase 3
- Stronger Country Community Fund - Road 5
- Regional Youth Investment Program - Round 1

Accounting policy

Contract liabilities are recorded when consideration is received from a customer / fund provider prior to Council transferring a good or service to the customer, Council presents the funds which exceed revenue recognised as a contract liability.

C3-3 Borrowings

Total undrawn financing arrangements	1,240	617

Additional financing arrangements information

C3-3 Borrowings (continued)

Breaches and defaults

No breaches noted during the year.

(1) The bank overdraft facility may be drawn at any time and may be terminated by the bank without notice.

Accounting policy

Council measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are removed from the Statement of Financial Position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in other income or borrowing costs.

Remeasurement effects	24	(211)	(44)	–	(231)
Total ELE provisions at end of year	1,675	3,241	502	46	5,464

Accounting policy

Employee benefit provisions are presented as current liabilities in the Statement of Financial Position if Council does not have an unconditional right to defer settlement for at least 12 months after the reporting date, regardless of when the actual settlement is expected to occur and therefore all annual leave and vested long service leave (or that which vests within 12 months) is presented as current.

Short-term obligations

Liabilities for wages and salaries (including non-monetary benefits, annual leave and accumulating sick leave expected to be wholly settled within 12 months after the end of the period in which the employees render the related service) are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave and accumulating sick leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables.

Other long-term employee benefit obligations

The liability for long-service leave and annual leave that is not expected to be wholly settled within 12 months after the end of the period in which the employees render the related service is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

C3-4 Employee benefit provisions (continued)

On-costs

The employee benefit provisions include the aggregate on-cost liabilities that will arise when payment of current employee benefits is made in future periods.

These amounts include superannuation, payroll tax and workers compensation expenses which will be payable upon the future payment of certain leave liabilities which employees are entitled to at the reporting period.

At beginning of year	8,282	8,282
Other	11,684	11,684
Total other provisions at end of year	19,966	19,966

Nature and purpose of provisions

Asset remediation

Council has a legal/public obligation to make, restore, rehabilitate and reinstate the council waste management facilities and quarries.

The asset remediation provision represents the present value estimate of future costs Council will incur to restore, rehabilitate and reinstate the tip and quarry as a result of past operations.

During the 2022 financial year Council received revised closure and remediation costs for three (3) of its facilities, Scone, Merriwa and Murrurundi from specialised consultants. Review of these costs was undertaken with updated estimates provided by consultants for the three sites listed. These updated costs provided comfort that the amount of the provision appears reasonable.

Accounting policy

Provisions are recognised when Council has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

C3-5 Provisions (continued)

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as a borrowing cost.

Asset remediation – tips and quarries

Close-down and restoration costs include the dismantling and demolition of infrastructure, and the removal of residual materials and remediation of disturbed areas. Estimated close-down and restoration costs are provided for in the accounting period when the obligation arising from the related disturbance occurs, whether this occurs during the development or during the operation phase, based on the net present value of estimated future costs. Provisions for close-down and restoration costs do not include any additional obligations which are expected to arise from future disturbance. The cost estimates are calculated annually during the life of the operation to reflect known developments, e.g. updated cost estimates and revisions to the estimated lives of operations, and are subject to formal review at regular intervals.

The ultimate cost of environmental remediation is uncertain and cost estimates can vary in response to many factors, including changes to the relevant legal requirements, the emergence of new restoration techniques, or experience at other locations. The expected timing of expenditure can also change, for example in response to changes in quarry reserves or production rates. As a result, there could be significant adjustments to the provision for close down and restoration and environmental clean-up, which would affect future financial results.

Other movements in the provisions for close-down and restoration costs, including those resulting from new disturbance, updated cost estimates, changes to the estimated lives of operations, and revisions to discount rates, are capitalised within infrastructure, property, plant and equipment. These costs are then depreciated over the lives of the assets to which they relate.

DRAFT

C4 Reserves

C4-1 Nature and purpose of reserves

IPPE Revaluation reserve

The infrastructure, property, plant and equipment (IPPE) revaluation reserve is used to record increments and decrements in the revaluation of infrastructure, property, plant and equipment.

Fair value through other comprehensive income reserve (FVOCI)

Changes in the fair value of financial assets are taken through the fair value through other comprehensive income revaluation reserve. The accumulated changes in fair value are transferred to profit or loss when the financial asset is derecognised or impaired.

DRAFT

D Council structure

D1 Results by fund

General fund refers to all Council activities other than water and sewer. All amounts disclosed in this note are gross i.e. inclusive of internal charges and recoveries made between the funds. Assets and liabilities shown in the water and sewer columns are restricted for use for these activities.

\$ '000	2023	2022
Upper Hunter Weeds Authority		

D2-2 Unconsolidated structured entities (continued)

\$ '000	2023	2022
---------	------	------

The Upper Hunter Weeds Authority (UHWA) is a gazetted Council, operating under the Local Government Act. UHWA is funded by contributions from its three constituent Councils (Upper Hunter Shire, Muswellbrook Shire and Singleton Shire), grants and private works. Each Constituent Council has delegated its Noxious weeds control function to (UHWA) and contributes in accordance with the UHWA's proclamation. UHWA's governing body consists of seven Councillors elected by each of the Constituent Councils. Upper Hunter Shire Council elects 3 councillors to the County Council, whilst both Muswellbrook Shire Council and Singleton Shire Council each elect 2 councillors.

Nature of risks relating to the Unconsolidated Structured Entity

UHWA is a separately constituted and proclaimed County Council. The proclamation determined each participating Council's contribution. These contributions are the total financial support required of each constituent Council.

Upper Hunter Shire Council has no obligation should UHWA become insolvent. As a proclaimed entity of the State of NSW any obligation will remain with the State.

Losses (or expenses) incurred by Council relating to the Structured Entity	190	189
--	-----	-----

Non-contractual financial support provided

Upper Hunter Shire Council did not provide any non contractual support to the Upper Hunter Weeds Authority.

Current intention to provide financial support

Upper Hunter Shire Council will continue to provide a contribution to Upper Hunter Weeds Authority in accordance with Upper Hunter Weeds Authority's proclamation.

DRAFT

E Risks and accounting uncertainties

E1-1 Risks relating to financial instruments held

Council's activities expose it to a variety of financial risks including (1) price risk, (2) credit risk, (3) liquidity risk and (4) interest rate risk.

The Council's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Council.

Council does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by Council's finance section under policies approved by the Council.

The fair value of Council's financial assets and financial liabilities approximates their carrying amount.

\$ '000	Carrying value 2023	Carrying value 2022	Fair value 2023	Fair value 2022
Financial assets				
Measured at amortised cost				
Cash and cash equivalents	7,599	3,121	7,599	3
Receivables	15,484	15,722	15,484	16
Investments				
– Debt securities at amortised cost	33,500	33,529	33,500	34
Total financial assets	56,583	52,372	56,583	53
Financial liabilities				
Payables	14,249	9,525	14,249	10
Loans/advances	31,525	33,955	31,525	34
Total financial liabilities	45,774	43,480	45,774	44

Fair value is determined as follows:

- **Cash and cash equivalents, receivables, payables** – are estimated to be the carrying value that approximates market value.
- **Borrowings and measure at amortised cost investments** – are based upon estimated future cash flows discounted by the current market interest rates applicable to assets and liabilities with similar risk profiles, unless quoted market prices are available.
- Financial assets classified (i) **at fair value through profit and loss** or (ii) **at fair value through other comprehensive income** – are based upon quoted market prices (in active markets for identical investments) at the reporting date or independent valuation.

Council's objective is to maximise its return on cash and investments whilst maintaining an adequate level of liquidity and preserving capital.

Council's finance area manages the cash and Investments portfolio with the assistance of independent advisors.

Council has an investment policy which complies with the Local Government Act 1993 and Minister's investment order 625. This policy is regularly reviewed by Council and its staff and an investment report is tabled before Council on a monthly basis setting out the portfolio breakup and its performance as required by Local Government regulations.

The risks associated with the instruments held are:

- **Price risk** – the risk that the capital value of Investments may fluctuate due to changes in market prices, whether these changes are caused by factors specific to individual financial instruments or their issuers or are caused by factors affecting similar instruments traded in a market.
- **Interest rate risk** – the risk that movements in interest rates could affect returns and income.
- **Liquidity risk** – the risk that Council will not be able to pay its debts as and when they fall due.

E1-1 Risks relating to financial instruments held (continued)

- **Credit risk** – the risk that the investment counterparty will not complete their obligations particular to a financial instrument, resulting in a financial loss to Council – be it of a capital or income nature.

Council manages these risks (amongst other measures) by diversifying its portfolio and only purchasing investments with high credit ratings or capital guarantees.

Council also seeks advice from independent advisers before placing any funds in cash equivalents and investments.

(a) Market risk – interest rate and price risk

\$ '000	2023	2022
The impact on result for the year and equity of a reasonably possible movement in the price of investments held and interest rates is shown below. The reasonably possible movements were determined based on historical movements and economic conditions in place at the reporting date.		
Impact of a 1% movement in interest rates		
– Equity / Income Statement	411	367
Impact of a 10% movement in price of investments		
– Equity / Income Statement	–	–

(b) Credit risk

Council's major receivables comprise (i) rates and annual charges and (ii) user charges and fees.

Council manages the credit risk associated with these receivables by monitoring outstanding debt and employing stringent debt recovery procedures. Council also encourages ratepayers to pay their rates by the due date through incentives.

The credit risk for liquid funds and other short-term financial assets is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

There are no significant concentrations of credit risk, whether through exposure to individual customers, specific industry sectors and/or regions.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

Council makes suitable provision for doubtful receivables as required and carries out credit checks on most non-rate debtors.

There are no material receivables that have been subjected to a re-negotiation of repayment terms.

Credit risk profile

Receivables – rates and annual charges

Credit risk on rates and annual charges is minimised by the ability of Council to recover these debts as a secured charge over the land; that is, the land can be sold to recover the debt. Council is also able to charge interest on overdue rates and annual charges at higher than market rates which further encourages payment.

\$ '000	Not yet overdue	overdue rates and annual charges < 5 years	≥ 5 years	Total
2023				
Gross carrying amount	–	1,717	70	1,787
2022				
Gross carrying amount	–	1,795	60	1,855

Receivables - non-rates and annual charges and contract assets

Council applies the simplified approach for non-rates and annual charges debtors and contract assets to provide for expected credit losses, which permits the use of the lifetime expected loss provision at inception. To measure the expected credit losses, non-rates and annual charges debtors and contract assets have been grouped based on shared credit risk characteristics and the days past due.

E1-1 Risks relating to financial instruments held (continued)

The loss allowance provision is determined as follows. The expected credit losses incorporate forward-looking information.

\$ '000	Not yet overdue	Overdue debts				Total
		0 - 30 days	31 - 60 days	61 - 90 days	> 91 days	
2023						
Gross carrying amount	14,212	–	–	–	–	14,212
Expected loss rate (%)	0.00%	0.00%	0.00%	0.00%	11.72%	0.00%
ECL provision	–	–	–	–	–	–
2022						
Gross carrying amount	–	6,084	4,667	52	3,539	14,342
Expected loss rate (%)	0.00%	0.00%	0.00%	0.00%	11.72%	2.89%
ECL provision	–	–	–	–	415	415

(c) Liquidity risk

Payables, lease liabilities and borrowings are both subject to liquidity risk; that is, the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due.

Council manages this risk by monitoring its cash flow requirements and liquidity levels, and by maintaining an adequate cash buffer. Payment terms can be extended, and overdraft facilities drawn upon in extenuating circumstances.

Borrowings are also subject to interest rate risk: the risk that movements in interest rates could adversely affect funding costs. Council manages this risk through diversification of borrowing types, maturities and interest rate structures.

The finance team regularly reviews interest rate movements to determine if it would be advantageous to refinance or renegotiate part or all of the loan portfolio.

The timing of cash flows presented in the table below to settle financial liabilities reflects the earliest contractual settlement dates. The timing of expected outflows is not expected to be materially different from contracted cashflows.

The amounts disclosed in the table are the undiscounted contracted cash flows for non-lease liabilities (refer to Note C2-1(b) for lease liabilities) and therefore the balances in the table may not equal the balances in the Statement of Financial Position due to the effect of discounting.

\$ '000	Weighted average interest rate	Subject to no maturity	payable in:			Total cash outflows	Actual carrying values
			≤ 1 Year	1 - 5 Years	> 5 Years		
2023							
Payables	0.00%	235	14,014	–	–	14,249	14,249

Loan agreement breaches

Detail here any breaches to loan agreements which have occurred during the reporting year.

E2-1 Fair value measurement

The Council measures the following asset and liability classes at fair value on a recurring basis:

– Infrastructure, property, plant and equipment

The fair value of assets and liabilities must be estimated in accordance with various accounting standards for either recognition and measurement requirements or for disclosure purposes.

AASB 13 Fair Value Measurement requires all assets and liabilities measured at fair value to be assigned to a 'level' in the fair value hierarchy as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

\$ '000	Notes	Fair value measurement hierarchy				Total	
		Level 2 Significant observable inputs		Level 3 Significant unobservable inputs		2023	2022
		2023	2022	2023	2022

Total infrastructure, property, plant and equipment		–	–	–	1,122,064	–	1,122,064

Non-recurring fair value measurements

Valuation techniques

Where Council is unable to derive fair valuations using quoted market prices of identical assets (ie. level 1 inputs) Council instead utilises a spread of both observable inputs (level 2 inputs) and unobservable inputs (level 3 inputs).

The fair valuation techniques Council has employed while utilising level 2 and level 3 inputs are as follows:

Infrastructure, property, plant and equipment (IPPE)

Plant & Equipment, Office Equipment and Furniture & Fittings

E2-1 Fair value measurement (continued)

Plant & Equipment, Office Equipment and Furniture & Fittings are valued at cost but are disclosed at fair value in the notes. The carrying value of these assets are assumed to approximate fair value due to the nature of the items.

Examples of assets within these classes are as follows:

- Plant and Equipment: Trucks, tractors, mowers, street sweepers, earthmoving Equipment and vehicles.
- Office Equipment: Computer equipment, projectors, printers, general electronic office equipment.
- Furniture & Fittings: Chairs, desks, blinds, shelving, benches.

The key unobservable inputs to the valuation are the remaining useful life and residual value of these classes of assets. Council reviews the value of these assets against quoted prices for the gross current replacement cost of similar assets and by taking into account the pattern of consumption, estimated remaining useful life and the residual value. There has been no change to the valuation process during the reporting period.

Operational Land

Generally, fair value is the most advantageous value reasonably obtainable by the seller and the most advantageous value reasonably obtainable by the purchaser. This is not necessarily the market selling price of the asset, but rather the maximum value that Council would rationally pay to acquire the asset if it did not hold it, taking into account quoted market price in an active and liquid market, the current market price of the same or similar asset, the cost of replacing the asset, if management intend to replace the asset and cashflows from the future use and disposal. There has been no change to the valuation process during the reporting period.

Community Land

Valuations of all Council's Community Land and Council managed land were based on either the Unimproved Capital Value (UCV) provided by the Valuer-General or an average unit rate based on the UCV for similar properties where the Valuer-General did not provide a UCV having regard to the highest and best use for this land. As these rates were not considered to be observable market evidence they have been classified as Level 3. There has been no change to the valuation process during the reporting period.

Land Under Roads

Council has elected to recognise Land Under Roads where the road was acquired on or after 1 July 2008. 'Land under roads' have been valued using the square metres rates applicable for nearby or adjacent Community Land having regard to the unimproved capital value. As these rates were not considered to be observable market evidence they have been classified as Level 3. There has been no change to the valuation process during the reporting period.

Buildings - Non specialised and Specialised

Buildings were valued by APV Valuers and Asset Management during the 2023 year using the cost approach. The approach estimated the replacement cost for each building by componentising the buildings into significant parts with different useful lives and taking into account a range of factors. While all buildings were physically inspected and the unit rates based on square metres could be supported from market evidence, which included a comparison of sale prices of comparable properties after adjusting for differences in key attributes such as property size (Level 2) other inputs (such as estimates of residual value, asset condition and pattern of consumption) required extensive professional judgement and impacted significantly on the final determination of fair value. It should be noted that Council does not believe it has any material buildings that could be held at market value rather than replacement cost as the nature of the buildings are specific to council needs. As such these assets were classified as having been valued using Level 3 valuation inputs.

Other Structures

This asset class comprises Cemeteries, Tourism fixtures and Communication towers.

The cost approach has been utilised whereby the replacement cost was estimated for each asset by taking into account a range of factors. While some elements of gross replacement values could be supported from market evidence (Level 2 input) other inputs (such as estimates of pattern of consumption, residual value, asset condition and useful life) required extensive professional judgement and impacted significantly on the final determination of fair value. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Roads and Bulk Earthworks

This asset class comprises both sealed and unsealed roads for regional, rural and urban vacinaties including kerb & guttering and bulk earthworks. The road carriageway is defined as the trafficable portion of a road, between but not including the kerb and gutter. The 'Cost Approach' using Level 3 inputs was used to value the road carriageway and other road infrastructure. Valuations for the road carriageway, comprising surface, pavement and formation were based on Council, contractor and

E2-1 Fair value measurement (continued)

industry averages for construction. The Road network is mapped and condition assessed using a combination of photography condition assessment and physical inspection. Condition information is updated as changes in the network are observed through regular inspections. A residual base has also been calculated into the value of the asset class when assessing condition basis assessments.

The cost approach was utilised and while the unit rates based on square metres, linear metres or similar could be supported from market evidence (Level 2) other inputs (such as estimates pattern of consumption, residual value, asset condition and useful life) required extensive professional judgement and impacted significantly on the final determination of fair value. Additionally there has been some limitations in data collection including historical data pertaining to the construction specifications, dimensions and rehabilitation cost aspects of the road network which are affected in part by heavy vehicle traffic usage and soil compound under the road construction. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Bridges

Bridges were valued in-house by experienced engineering & asset management staff. The approach in estimating the replacement cost for each bridge was based on square metre of construction calculated using Council, contractor and industry averages for both timber and concrete structures. Bridges are condition assessed using a combination of photography condition assessment and physical inspection. Condition information is updated as changes in the network are observed through regular inspections. It should be noted that these values were not derived from componentising the asset itself but valued as a whole asset unit.

While all bridges were physically inspected and the unit rates based on square metres could be supported from market evidence (Level 2) other inputs (such as estimates of residual value, asset condition and pattern of consumption) required extensive professional judgement and impacted significantly on the final determination of fair value. Additionally there has been some limitations in data collection including historical data pertaining to build date, construction specifications, dimensions and rehabilitation cost aspects of the concrete and timber bridges which are affected in part by heavy vehicle traffic usage. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Footpaths

Footpaths were valued in-house by experienced engineering & asset management staff. Footpaths were segmented to match the adjacent road segment and no further componentisation was undertaken. Footpaths were originally mapped and condition assessed using a combination of photography condition assessment and physical inspection. Condition information is updated as changes in the network are observed through regular inspections.

While all footpaths were physically inspected and the unit rates based on square metres could be supported from market evidence (Level 2) other inputs (such as estimates of residual value, asset condition and pattern of consumption) required extensive professional judgement and impacted significantly on the final determination of fair value. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Drainage

Assets within this class comprise pits, pipes, open channels, headwalls and various types of water quality devices. The 'Cost Approach' estimated the replacement cost for each asset by componentising the assets into significant parts with different useful lives and taking into account a range of factors. The Level of componentisation adopted by Council is in accordance with OLG Circular 09- 09 and the Institute of Public Works Engineers Australia's International Infrastructure Management Manual (IIMM).

While the unit rates based on linear metres of certain diameter pipes and prices per pit or similar could be supported from market evidence (Level 2) other inputs (such as estimates of pattern of consumption, residual value, asset condition and useful life) required extensive professional judgement and impacted significantly on the final determination of fair value. Additionally due to limitations in the historical records of very long lived assets there is uncertainty regarding the actual design, specifications and dimensions of some assets. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Ancillary Infrastructure

Assets within this class comprise Aerodrome, Depots, Saleyards and Transport ancillaries. Ancillary infrastructure assets were valued in-house by experienced engineering & asset management staff.

While some elements of gross replacement values could be supported from market evidence (Level 2 input) other inputs (such as estimates of pattern of consumption, residual value, asset condition and useful life) required extensive professional

E2-1 Fair value measurement (continued)

judgement and impacted significantly on the final determination of fair value. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Water Supply Network

This asset class comprises the Bores, Wells, Dams, Reserviors, Treatment plants, Meters, Pipes, Pump Stations, Augmentations and other related infrastructure. As at 30 June 2012 the Water systems were revalued in accordance with DLG Fair Valuation - Infrastructure, Property, Plant and Equipment Circular(s) by in-house experienced engineering & asset management staff. Dams, Pump stations, Reserviors, Treatment works had their 2007 valuation as prepared by the NSW Department of Commerce indexed as per the updated 2012 NSW Reference Rates Manual 2011 figure by 18%. For the period post the valuation an incremental adjustment based on the NSW Reference Rates Manual NSW Water & Sewerage Construction Costs Indices.

The cost approach was utilised and while the unit rates based on square metres, linear metres or similar could be supported from market evidence (Level 2) other inputs (such as estimated pattern of consumption, residual value, condition based asset assessment and useful life) required extensive professional judgement and impacted significantly on the final determination of fair value. A major factor involved in this process has been the condition based assessment of the network which has been arrived at using data pertaining to historical breakage maintenance, pipe digups and pipe material type. Additionally there has been some limitations in the data collection which included obtaining historical data of installation date, construction specifications (dimensions, depth of pipe, pipe type, ect.) and rehabilitation cost of the water network. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Sewer Network

This asset class comprises the Pump stations, Treatment plants, Pipes and other related infrastructure. As at 30 June 2012 the Sewer systems were revalued in accordance with OLG Fair Valuation - Infrastructure, Property, Plant and Equipment Circular(s) by in-house experienced engineering & asset management staff. Pump stations and Treatment works had their 2007 valuation as prepared by the NSW Department of Commerce indexed as per the updated 2012 NSW Reference Rates Manual 2011 figure by 18%. For the period post the valuation an incremental adjustment based on the NSW Reference Rates Manual NSW Water & Sewerage Construction Costs Indices.

The cost approach was utilised and while the unit rates based on square metres, linear metres or similar could be supported from market evidence (Level 2) other inputs (such as estimated pattern of consumption, residual value, condition based asset assessment and useful life) required extensive professional judgement and impacted significantly on the final determination of fair value. A major factor involved in this process has been the condition based assessment of the network which has been arrived at using data pertaining to CCTV footage, historical breakage maintenance and pipe material type. Additionally there has been some limitations in the data collection which included obtaining historical data of installation date, construction specifications (dimensions, depth of pipe, pipe type, ect.) and rehabilitation cost of the water network. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Swimming Pools

Assets within this class comprise Council's swimming pools at three separate locations. The pools were valued in-house using the cost approach by experienced Council engineers and asset management staff. The approach estimated the replacement cost for each pool by componentising its significant parts.

While some elements of gross replacement values could be supported from market evidence (Level 2 input) other inputs (such as estimates of pattern of consumption, residual value, asset condition and useful life) required extensive professional judgement and impacted significantly on the final determination of fair value. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Open Spaces

Assets within this class comprise Parks & Gardens, Camping Grounds and Sporting grounds. Open space assets were valued in-house by experienced engineering & asset management staff.

While some elements of gross replacement values could be supported from market evidence (Level 2 input) other inputs (such as estimates of pattern of consumption, residual value, asset condition and useful life) required extensive professional judgement and impacted significantly on the final determination of fair value. As such these assets were all classified as having been valued using Level 3 valuation inputs. here has been no change to the valuation process during the reporting period.

Library Books & Other Assets

Library Books and Other Assets are valued at cost but are disclosed at fair value in the notes. The carrying amount of these assets is assumed to approximate fair value due to the nature of the items.

E2-1 Fair value measurement (continued)

Council reviews the value of both these classes of assets against quoted prices for the gross current replacement cost of similar assets and by taking account of the pattern of consumption, estimated remaining useful life and the residual value. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

Waste Disposal Landfills & Quarries

The Council maintains four (4) tip sites and thirty eight (38) quarry sites within the Shire.

The tips encompasses a landfilling operation as well as a wide range of waste disposal services, resource recovery services, recycled and reclaimed products, and waste management educational activities while the quarry pits encompasses a gravel extraction operations. It has been recognised that there will be significant costs associated with the closure and post closure management of both the landfill and quarry sites.

Closure of the landfill will involve a wide range of activities including preparation of a Landfill Closure and Management Plan, final capping of the landfill waste and site re-vegetation, installation of a final landfill gas management system, revision of the surface water management system and leachate management infrastructure to suit post-closure operation, decommissioning and removing infrastructure and equipment that will not be required post-closure, and fencing sensitive infrastructure. While closure of the quarry pits will involve a wide range of activities including preparation of a Closure and Management Plan, site re-vegetation, decommissioning and removing infrastructure and equipment that will not be required post-closure.

The key unobservable inputs are the discount rate, cost escalation rate, actual timing of costs and future environmental management requirements. As such these assets were all classified as having been valued using Level 3 valuation inputs. There has been no change to the valuation process during the reporting period.

If there are changes in valuation techniques from prior years, these and the reasons for change also need to be listed.

Fair value measurements using significant unobservable inputs (level 3)

A reconciliation of the movements in recurring fair value measurements allocated to Level 3 of the hierarchy is provided below:

E3-1 Contingencies

The following assets and liabilities do not qualify for recognition in the Statement of Financial Position, but their knowledge and disclosure is considered relevant to the users of Council's financial report.

LIABILITIES NOT RECOGNISED

1. Guarantees

(i) Defined benefit superannuation contribution plans

Council is party to an Industry Defined Benefit Plan under the Local Government Superannuation Scheme, named The Local Government Superannuation Scheme – Pool B (the Scheme) which is a defined benefit plan that has been deemed to be a 'multi-employer fund' for purposes of AASB119 Employee Benefits for the following reasons:

- Assets are not segregated within the sub-group according to the employees of each sponsoring employer.
- The contribution rates have been the same for all sponsoring employers. That is, contribution rates have not varied for each sponsoring employer according to the experience relating to the employees of that sponsoring employer.
- Benefits for employees of all sponsoring employers are determined according to the same formulae and without regard to the sponsoring employer.
- The same actuarial assumptions are currently used in respect of the employees of each sponsoring employer.

Given the factors above, each sponsoring employer is exposed to the actuarial risks associated with current and former employees of other sponsoring employers, and hence shares in the associated gains and losses (to the extent that they are not borne by members).

(a) a description of the funding arrangements, including the method used to determine the Council's rate of contributions to the Fund.

Pooled employers are required to pay future service employer contributions and past service employer contributions to the Fund.

The future service employer contributions were determined using the new entrant rate method under which a contribution rate sufficient to fund the total benefits over the working life-time of a typical new entrant is calculated. The current future service employer contribution rates are:

Division B	1.9 times employee contributions for non-180 Point Members; Nil for 180 Point Members*
Division C	2.5% salaries
Division D	1.64 times employee contributions

* For 180 Point Members, Employers are required to contribute 8.0% of salaries for the year ending 30 June 2023 (increasing to 8.5% in line with the increase in the Superannuation Guarantee) to these members' accumulation accounts, which are paid in addition to members' defined benefits.

The past service contribution for each Pooled Employer is a share of the total past service contributions of \$20 million for 1 July 2022 to 31 December 2024, apportioned according to each employer's share of the accrued liabilities as at 30 June 2022. These past service contributions are used to maintain the adequacy of the funding position for the accrued liabilities.

The adequacy of contributions is assessed at each triennial actuarial investigation and monitored annually between triennials.

(b) a description of the extent to which Council can be liable to the plan for other Council's obligations under the terms and conditions of the multi-employer plan.

As stated above, each sponsoring employer is exposed to the actuarial risks associated with current and former employees of other sponsoring employers and hence shares in the associated gains and losses.

However, there is no relief under the Fund's trust deed for employers to walk away from their defined benefit obligations. Under limited circumstances, an employer may withdraw from the plan when there are no active members, on full payment of outstanding past service contributions. There is no provision for allocation of any surplus which may be present at the date of withdrawal of the Council.

(c) a description of any agreed allocation of a deficit or surplus on:

- (i) Wind-up of the plan

E3-1 Contingencies (continued)

There are no specific provisions under the Fund's trust deed dealing with deficits or surplus on wind-up.

(ii) the Council's withdrawal from the plan

There is no provision for allocation of any surplus which may be present at the date of withdrawal of an employer.

(d) given Council accounts for the plan as if it were a defined contribution plan in accordance with the following information:

(i) the fact that the plan is a defined benefit plan.

(ii) the reason why sufficient information is not available to enable Council to account for the plan as a defined benefit plan.

(iii) the expected contributions to the plan for the next annual reporting period.

The amount of Council employer contributions to the defined benefit section of the Local Government Superannuation Scheme and recognised as an expense for the year ending 30 June 2023 was \$100,253.63. The last formal valuation of the Fund was undertaken by the Fund Actuary, Mr Richard Boyfield, FIAA as at 30 June 2022.

The amount of past service contributions included in the total employer contribution advised above is \$63,450.72. Council's expected contribution to the plan for the next annual reporting period is \$93,108.72.

(iv) information about any deficit or surplus in the plan that may affect the amount of future contributions, including the basis used to determine that deficit or surplus and the implications, if any, for Council.

The estimated employer reserves financial position for the Pooled Employers at 30 June 2022 is:

Employer reserves only *	\$millions	Asset Coverage
Assets	2,290.9	
Past Service Liabilities	2,236.1	102.4%
Vested Benefits	2,253.6	101.7%

* excluding member accounts and reserves in both assets and liabilities.

The key economic long term assumptions used to calculate the present value of accrued benefits are:

Investment return	6.00% per annum
Salary inflation *	3.50% per annum
Increase in CPI	6.0% for FY 22/23 2.50% per annum thereafter

The contribution requirements may vary from the current rates if the overall sub-group experience is not in line with the actuarial assumptions in determining the funding program; however, any adjustment to the funding program would be the same for all sponsoring employers in the Pooled Employers group. Please note that the estimated employer reserves financial position above is a preliminary calculation, and once all the relevant information has been received by the Funds Actuary, the final end of year review will be completed by December 2023.

(v) an indication of the level of participation of Council in the plan compared with other participating Council's.

An employer's past service contribution per annum as a percentage of the total past service contributions for all Pooled Employers (of \$20m for each year from 1 January 2022 to 31 December 2024) provides an indication of the level of participation of that employer compared with other employers in the Pooled Employer sub-group.

Based on a past service liabilities methodology, the share of the deficit that can be attributed to Council is 0.32%.

(ii) Statewide Limited

Council is a member of Statewide Mutual, a mutual pool scheme providing liability insurance to local government.

Membership includes the potential to share in either the net assets or liabilities of the fund depending on its past performance. Council's share of the net assets or liabilities reflects Council's contributions to the pool and the result of insurance claims within each of the fund years.

The future realisation and finalisation of claims incurred but not reported to 30 June this year may result in future liabilities or benefits as a result of past events that Council will be required to fund or share in respectively.

E3-1 Contingencies (continued)

(iii) StateCover Limited

Council is a member of StateCover Mutual Limited and holds a partly paid share in the entity.

StateCover is a company providing workers compensation insurance cover to the NSW local government industry and specifically Council.

Council has a contingent liability to contribute further equity in the event of the erosion of the company's capital base as a result of the company's past performance and/or claims experience or as a result of any increased prudential requirements from APRA.

These future equity contributions would be required to maintain the company's minimum level of net assets in accordance with its licence requirements.

(iv) Other guarantees

Council has provided a Bank Guarantee to the upper limit of \$500,000 as a security against a bank loan as per a Council resolution dated 28 July 2008 for Murravale Retirement Home.

2. Other liabilities

(i) Third party claims

The Council is involved from time to time in various claims incidental to the ordinary course of business including claims for damages relating to its services.

Council believes that it is appropriately covered for all claims through its insurance coverage and does not expect any material liabilities to eventuate.

(ii) Potential land acquisitions due to planning restrictions imposed by Council

Council has classified a number of privately owned land parcels as local open space or bushland.

As a result, where notified in writing by the various owners, Council will be required to purchase these land parcels.

At reporting date, reliable estimates as to the value of any potential liability (and subsequent land asset) from such potential acquisitions has not been possible.

ASSETS NOT RECOGNISED

(i) Land under roads

As permitted under AASB 1051, Council has elected not to bring to account land under roads that it owned or controlled up to and including 30/6/08.

(ii) Infringement notices/fines

Fines and penalty income, the result of Council issuing infringement notices is followed up and collected by the Infringement Processing Bureau.

Council's revenue recognition policy for such income is to account for it as revenue on receipt.

Accordingly, at year end, there is a potential asset due to Council representing issued but unpaid infringement notices.

Due to the limited information available on the status, value and duration of outstanding notices, Council is unable to determine the value of outstanding income.

F People and relationships

F1 Related party disclosures

F1-1 Key management personnel (KMP)

Key management personnel (KMP) of the council are those persons having the authority and responsibility for planning, directing and controlling the activities of the council, directly or indirectly.

The aggregate amount of KMP compensation included in the Income Statement is:

\$ '000	2023	2022
Compensation:		
Short-term benefits	944	1,013
Post-employment benefits	71	84
Total	1,015	1,097

Other transactions with KMP and their related parties

Council has determined that transactions at arm's length between KMP and Council as part of Council delivering a public service objective (e.g. access to library or Council swimming pool by KMP) will not be disclosed.

Nature of the transaction		Transactions	Outstanding	Terms and conditions	Impairment	Impairment
\$ '000	Ref	during the year	balances including commitments		provision on outstanding balances	expense
2023						
Supply of fabrication services	1	17	–	Normal Trade Terms & Conditions	–	–
Supply of fabrication services	2	–	–	Normal Trade Terms & Conditions	–	–
Employee expenses relating to close family member of KMP	3	136	–	Employment Conditions	–	–

2022						
Supply of fabrication services	1	88	–	Normal Trade Terms & Conditions	–	–
Supply of fabrication services	2	15	–	Normal Trade Terms & Conditions	–	–
Employee expenses relating to close family member of KMP	3	135	–	Employment Conditions	–	–
Supply of flowers and decorates	4	1	–	Normal Trade Terms & Conditions	–	–

1 Council acquired fabrication services during the 2022/2023 and 2021/2022 years from Sycolah, a business which is owned by the direct family members of a member of the KMP of the Council. These services were invoiced on an arms length basis and were payable under normal payment terms following the Council's procurement processes.

F1-1 Key management personnel (KMP) (continued)

- 2 Council acquired fabrication services during the 2021/2022 year from FNL Industries, a business which is owned by associated family members of a member of the KMP of the Council. These services were invoiced on an arms length basis and were payable under normal payment terms following the Council's procurement processes.
- 3 One (3) close family members of one (3) members of Council's KMP was employed by Council for the complete financial years 2021/2022 and 2020/2021 years under the relevant employee award on an arm's length basis. From the 23 November to 25 April 2023 one (1) additional close family members of one (1) members of Council's KMP were employed by Council under the relevant employee award on an arm's length basis.
- 4 Council acquired flowers and decorates during the 2022/2023 and 2021/2022 year from Jolimilla Pty Ltd Trading as Chocolate and Moss Floristry, a business which is owned by a member of the KMP of the Council. These acquisitions were invoiced on an arms length basis and were payable under normal payment terms following the Council's procurement processes.

G2-1 Commitments

Capital commitments (exclusive of GST)

\$ '000	2023	2022
---------	------	------

Capital expenditure committed for at the reporting date but not recognised in the financial statements as liabilities:

Property, plant and equipment

Plant and equipment	-	188
Bridge infrastructure	-	3,280
Sewerage Services	-	217
Water Supply	-	1,491
Total commitments	-	5,176

These expenditures are payable as follows:

Within the next year	-	5,176
Total payable	-	5,176

Sources for funding of capital commitments:

Unrestricted general funds	-	247
Future grants and contributions	-	3,364
Unexpended grants	-	523
Externally restricted reserves	-	854
Internally restricted reserves	-	188
Total sources of funding	-	5,176

Details of capital commitments

2021 Year

Plant & Equipment: Purchase of Caterpillar 140M Motor Grader, 2x Toro Groundmaster mowers, 3x Work Utility vehicles, mini Bobcat and plant trailers

Bridges: Replacement of Cmaerons Bridge

Building Infrastructure: Design and Construction of Hunter Warbirds & Terminal Building, Reconstruction of Liverpool Lodge Units 3&4, Replacement of Campbells Corner Roofing and construction of public amenities and restoration of 133 Kelly St Scone site.

Sporting Grounds: Upgrade of Wilson Memorial Oval Canteen and change rooms

Road Infrastructure: Detailed Design for MR358 Rehabilitation works and Design works for Moonan Brook and Hunter Road initial sealing works

2022

Plant & Equipment: Purchase of 4x work Utility vehicles

Bridges: Replacement of 9 Bridges under the Fixing Country Bridges Program

Water Infrastructure: Water Mains Replacement program and Upgrade of Aberdeen Intake infrastructure pumps & electrical

Water & Sewerage Management Plans: Development of the Integrated Water Cycle Management Strategy

G3-1 Events occurring after the reporting date

Council is unaware of any material or significant 'non-adjusting events' that should be disclosed.
